

Unclog a drain without chemicals

\_Clog Removal\_

Pour 1 cup of baking soda down the clogged drain  
Of your tub or shower. Follow that immediately with  
With a cup of table salt, then ½ cup of white distilled  
Vinegar.

If there's foaming and fizzing and gurgling---that's good  
Let ingredients continue working their way through the  
Sludgy clog. While you boil 2 quarts of tap water and set  
A kitchen timer for 15 minutes.

Carefully and slowly pour the boiled water down the drain.  
Then run the tap water for about 1 minute.

If it's not completely unclogged, repeat the process.

Toss 3 Alka-Seltzer tablets down the drain and add  
1 cup of distilled white vinegar. Wait 3 minutes, then  
Run the hot water
